

NO CASH FOR TIPPING? NO PROBLEM.

Introducing **ValetPro**

Are your valet drivers losing out on tips? ValetPro is the world's first mobile tipping app made to help valets get the tips they deserve while improving operational flow, employee retention, and customer satisfaction in the valet industry.

WHAT VALETPRO OFFERS FOR CUSTOMERS

Vehicle Request Function

No more waiting for your car! With ValetPro's vehicle request functionality, customers can request their vehicle ahead of time so when they arrive their vehicle is waiting for them.

Convenience

No need to run to the ATM or count up handfuls of loose change for a tip. ValetPro allows your customers to tip their valet from their mobile phone for a small convenience fee.

Flexibility

Download the app and create an account. Link your ValetPro account to PayPal or quickly scan your credit card and you are set to go. All transactions are fast, easy, and secure.

WHAT VALETPRO OFFERS FOR MANAGEMENT

Increase Employees Satisfaction

Your valets work hard, and hard work deserves a just reward—but unfortunately, customers don't always have cash on hand. With ValetPro's digital tipping capability, valets receive the full tip amount or tips can be pooled and automatically distributed among employees.

Help Manage Key Performance Indicators

With ValetPro, customers can rate their valet's service which incentivizes excellent performance. Managers have insight with ValetPro's reporting capabilities.

Stay Ahead of the Competition

New on-demand valet apps like Luxe and Zirx are disrupting the traditional curbside valet model. ValetPro's vehicle request functionality will help you compete in today's digital world.

Improve Flow

ValetPro's vehicle request functionality allows for better management of car retrieval flow at high traffic times. Vehicles requested get added to a queue for valets to retrieve and customers are notified when their car is ready.
